

# Statistics on specialist housing provision for older people in England

## Introduction

### Table 1. Shire counties and districts

### Table 2. Metropolitan unitary authorities

### Table 3. Non-metropolitan unitary authorities

### Table 4. Ceremonial counties and districts

(This table ignores the sensibilities of local authority folk, and provides a more coherent *geographical* picture of provision. For example Nottingham, a unitary authority, will be found under Nottinghamshire)

### Table 5. Regional and national summary

## Introduction

This report attempts to quantify the provision of two variants of specialist housing for older people in England – the one providing support to residents to help them live independently (referred to as ‘housing with support’ in this report), the other also providing or facilitating personal care when required (‘housing with care’).

In the public and social sectors, ‘housing with support’ has traditionally been known as ‘sheltered housing’, and in the leasehold sector as ‘retirement housing’. There is no dominant terminology yet in the ‘housing with care’ arena – though ‘extra care sheltered housing’, or simply ‘extra care housing’, is fast gaining acceptance. *Assisted living, very sheltered housing, continuing care communities* and *close care housing* are also used,

Beyond terminology, there are no longer universally accepted *definitions* for any of the many variants of housing provision for older people that now exist. Huge variations exist *within* both the broad categories identified above – in terms of built form, services and facilities provided, management arrangements and pricing structures.

Classification of schemes / developments has become much more difficult as support and care services have come to be regarded less as part of a fixed package that all residents must ‘buy into’, and more as part of a menu of offerings from which they can choose. Rented sheltered housing makes up the bulk of all the housing covered by this report, and changes have been implemented by many providers in this sector over recent years, mainly to reconfigure services in existing schemes – typically replacing resident *scheme managers* with full or part time non-resident ones, or with visiting or on-call support staff. In the newer housing with care field, public funding via DH and HC, and the accompanying work of the (former) DH-sponsored Housing LIN, has promoted a particular model of provision, this is still an experimental market in which many variations are being tested.

It is important therefore to understand exactly what is included in the stats presented in this report:

- **Housing with support:** Includes schemes with some form of regular on-site ‘warden’ or scheme manager service, however limited. Schemes without an on-site scheme manager service are excluded, including those with only an on-call / emergency visiting service.
- **Housing with care:** Includes schemes described by their landlord / manager as extra-care, assisted living, very sheltered, close care or continuing care.

View detailed information on all UK schemes / developments for older people on our website [www.HousingCare.org](http://www.HousingCare.org).
