Notes

Housing units

Both the rented and private sectors contain a wide range of housing types intended for older people. The social sector has traditionally distinguished these as Category 1, 2 etc., but the private sector tends to refer to them all simply as “retirement housing”.

This report looks only at schemes that fall within the following definition: *“a group of dwellings intended for older people and served by a resident or non-resident warden/scheme manager with specific responsibility for the group”*.

It is important to note that a considerable proportion of housing intended for older people falls outside this definition, and is therefore excluded. Extra care, assisted living, and other forms of 'housing with care' **are included**. The analysis covers a total of 518,125 properties in 15,999 schemes / developments in England.

Care & Nursing Home beds

These figures include beds in homes registered with the Care Quality Commission (CQC), and where the home in question caters primarily for elderly people. Excluded therefore are beds in homes which cater for a range of ages (possibly including the elderly), but exist to meet a specific need (eg. physical or mental handicap).

About Elderly Accommodation Counsel (EAC)

EAC is a charity that offers information and advice nationwide about all forms of accommodation designed to meet the needs of older people. To support this service, it undertakes research into all forms of accommodation and associated care & support services, and publishes data for the benefit of other advisers and providers in the fields of housing and care for older people.

The Service

Enquiries from members of the public are accepted by 'phone or letter, and the various options discussed with those clients who seek advice. General information leaflets are offered to assist them in arriving at a decision as to the most suitable form of accommodation.

Typically, clients then receive a comprehensive, personal Housing Options or Care Options Report. Where appropriate, this will contain details of sheltered / retirement housing developments, residential care homes or nursing homes selected to match their geographic requirements, need for support, financial circumstances and any relevant health conditions. In the case of housing to rent, eligibility factors are assessed by reference to landlords' allocations policies.

EAC does not recommend accommodation or providers of accommodation, and clients are advised to visit a housing scheme or home before considering any offer of a place.

Research

EAC's information databases are updated regularly by means of questionnaire surveys, with ad-hoc amendments in between. The bulk of this work is carried out "in house", often in partnership with, or sponsored by, an outside partner.

Publications

EAC publishes accommodation data and analyses in a range of formats to suit the needs of other advisory agencies, providers of housing and care, researchers and Government departments. Publications include:—

- County, regional & national Guides to Housing & Care Homes
- Our 'housing options' website: www.housingcare.org which offers searchable access to both our housing and care homes databases
